## SUMMER TERM 2017 (1)

Welcome back to the final term in J2! We hope you had a lovely break.

### CURRICULUM

This term is **science** term, with the theme 'What a Wonderful World' explored throughout the school. J2 will also be identifying and classifying trees and plants, as well as planting our own seeds.

In English, the children will continue to work on their grammar by covering question marks and exclamation marks, as well as sentence structure. The children will continue to develop their comprehension skills, as well as strengthening their phonics knowledge. We appreciate your commitment with the homework phonic packs. These have really helped the children with their reading and writing. Please also note we have put up a list of books to be shared and enjoyed on the school website.

In maths, the children will be continuing with number bonds, place value, money problems, whole/half, reflective symmetry, data handling and measurement, introducing times tables after half-term (2, 5 and 10). We ask for you to make your child aware of maths in everyday life to help with their understanding. As we continue teaching time, you might like to encourage your child to wear an **analogue** watch on non-sport days.

Our focus in geography this term is the United Kingdom and Europe. J2 will be exploring facts about the countries and using maps and atlases.

### HEALTHY SNACKS REMINDER

Remember 'Brain Snacks' for playtime – no sweets, chocolate or sugary drinks.

### UNIFORM

Please ensure all items of uniform are **visibly labelled** to allow for any lost items to be quickly returned.

Merit badges should be removed from blazers to start afresh this term.

### DATES
