

Merton Court Habits of Successful Learners

Since September 2018, these habits have been introduced to the whole school to encourage the children to behave intelligently when faced with problems where the answers are not immediately known.

Merton Court expects significantly more from our pupils and we provide opportunities to excel and have very high expectations of the children. We want the children to have

the same expectations of themselves and we believe that through these **habits** this will be achieved.

We would like you to be aware of them too so that you can support your child's development.

Overleaf are the habits that have been shared in school.
